## QUARTERLY ACTIVITIES REPORT MARCH 2020

---

Discovery Africa Limited (ASX: DAF) ("the Company"), is an Australian based mineral exploration company with an interest in the Pinyalling Gold Project in Western Australia.

The Company provides the following update for the Quarter;

### **Exploration Activities**

#### Pinyalling Gold Project

The Company owns a 100% interest in the Pinyalling Gold Project tenement in Western Australia.

The Pinyalling Project consists of Exploration Licence 59/2112 covering 18 blocks (54km<sup>2</sup>) and is located ~400km northeast of Perth. Access is via the Great Northern Highway from Perth to Paynes Find-Yalgoo Road. This road gives access to the Pinyalling Mining Centre, about 30km west of Paynes Find.

During the Quarter the Company continued to review and prepare the field work program to further advance the works conducted at the Project during the past year. This has involved delineating the structural trends and zones of potential interest from the anomalous areas identified from the geophysical review and anomalous results obtained from the previous soil sampling programme.

In addition, the Company is planning field inspection of the targets and possible preliminary soil sampling to ascertain the presence of any gold anomalism.

The Company also activated works to consider and respond to the *Plan for Our Parks* initiative, covering the *Proposed Thundelarra National Park - Class A - FNA 15020*, which affects the Company's tenement, and if declared a Class A reserve, may impact the Company's ability to conduct further exploration works within the tenement.

#### New Project Opportunities

The Company is currently working to identify and review new projects or asset acquisition opportunities, to enhance its project portfolio with an aim to increase the overall value proposition of the Company and ensure it is best placed to deliver value and upside potential for all its shareholders.

During the Quarter, the Company reviewed numerous mineral project opportunities and conducted due diligence over several projects that may complement the Company's current activities. Following completion of any successful project due diligence exercise and pending strategy to progress, the Company will consider any such opportunities and advance as and where required to progress with such project or projects.

## **Covid-19**

The Company is taking appropriate safety measures and actions to protect our staff and business operations, including precautions advised and regulated by the Australian Government. First and foremost, our priority is the health, safety and wellbeing of our staff, partners and community, and as such, the Company is actively monitoring the Covid-19 situation.

Noting intra-state travel within Western Australia is difficult, and taking actions as noted above, the Company has and will (during the period Covid-19 measures are in place) primarily focus on works to further review data and exploration information generated from previous exploration programs at the Project, in addition to continuing conducting works necessary for other potential mineral project opportunities.

## **Corporate**

The Company lodged its half-year financial report (ending 31 December 2019) during the Quarter.

The expenditure on exploration activities was approximately \$1,000 for the Pinyalling Project. Please note below, that director's fee payments have been accrued (thus minimising exploration activities expenditure).

There were no mining production and development activities conducted during the Quarter.

As outlined in the attached Appendix 5B (section 6.1), during the Quarter, no payments were made to related parties and their associates. Director fee payments for the Quarter have been accrued and will be paid next Quarter.

## **Schedule of Tenements**

The schedule of tenements held by the Company at the end of the Quarter is shown below. No tenements were acquired or disposed during the Quarter.

<b>Mining Tenement</b>	<b>Location</b>	<b>Beneficial Percentage held</b>
